

INTRODUCING THE ALL-NEW MICHELIN® ROAD 6 TIRE

AVAILABLE JANUARY 1, 2022

LEGENDARY PERFORMANCE... IMPROVED! ^{1,2}

INCREASED WET GRIP!¹

15% more grip than the MICHELIN® Road 5 tire in wet conditions thanks to 100% MICHELIN® Silica Technology™ tread compounds and a new tread pattern featuring MICHELIN® Water Evergrip Technology™.¹

RIDE EVEN LONGER!²

The MICHELIN® Road 6 tire delivers 10% longer tread life compared to the previous generation.²

DEDICATION TO INNOVATION

The MICHELIN® Road 6 tire typifies two decades of ongoing innovations and MICHELIN® Technologies from our highest level of expertise.

INCREASED CORNERING STABILITY

MICHELIN® 2CT+ Technology™, which has been standard on the rear tire, is now applied to the front tire for better rigidity at lean, and more stability when cornering, especially under strong acceleration or heavy braking, compared to the previous generation.

Actual results may vary. | (3) Excluding snow and ice and other extreme conditions.

MICHELIN® ROAD 6 TIRE KEY TECHNOLOGIES

MICHELIN® ROAD 6 VS. MICHELIN® ROAD 5

MICHELIN® WATER EVERGRIP TECHNOLOGY™

- Michelin's 3D sipe technology helps ensure a consistent water evacuation as the tire wears over time.

MICHELIN® 2CT+ TECHNOLOGY™

- MICHELIN® 2CT+ Technology™ on both front and rear tires help provide for better rigidity at lean and more stability when cornering, especially under strong acceleration or heavy braking, compared to the previous generation.

MICHELIN® ADAPTIVE DESIGN™

- New grooves and sipes angles designed to provide better transversal grip than the previous generation tire.
- A constant void ratio regardless of the line angle helps ensure a constant water evacuation.
